Intelligent Military Batteries & Charging Systems™

10 BRAYTON COURT, COMMACK, NY 11725

Certified to

ISO 9001:2008;
AS9100C

Dear Valued Customers and Partners:

Effective April 1, 2016 in adherence to the IATA's 2016 Guidelines, Bren-Tronics, Inc. will be shipping all AIR CARGO Lithium-Ion batteries at less than a 30% state of charge (SOC). For GROUND and SEA Shipments we will ship batteries at their SOC levels at the end of production (generally 30-50%).

If the initial 'ship to' point is not the final destination and the batteries will be further transported please see the detailed information of the amended regulation pertaining to lithium ion cells or batteries at:

<http://www.iata.org/whatwedo/cargo/dgr/Documents/lithium-battery-update.pdf>

When ordering please indicate if AIR shipments are required on your purchase order.

Thank you for your continued support. We appreciate your business.

If you have specific questions regarding this please let us know, sales@bren-tronics.com

The Bren-Tronics Team.
