

PP-8481B/U

Vehicle Mounted Charger (VMC)

Features

- The BTC-70836 is a state of the art portable battery charger designed for military vehicles.
- Specifically designed to withstand the rigors associated with operating within a moving vehicle.
- The charger is capable of charging up to 16 batteries simultaneously (depending on adapter) with an easy to follow LED lighting sequence.
- Will charge and maintain a large range of military communication and electronics batteries using a designated adapter.
- Charging Software is upgradeable in the field or a lab environment through the RS 232 port.
- Powered from 22V-28V DC, 15A, 90-260V AC, 47 to 420 Hz, 375 VA*
